Executive Summary

Health System Overview
Marshfield Clinic was founded in 1916 by six physicians practicing in Marshfield, a rural central Wisconsin city. At its inception, Clinic founders saw research and education as critical to their practice of health care and that remains so today.

The Clinic became a 501(c)(3) nonprofit organization in 1992, and in 2014, Marshfield Clinic Health System, Inc. (MCHS) was formed. The Health System’s mission is to enrich lives and create healthy communities through accessible, affordable, compassionate health care.

The Health System today is an integrated system serving Wisconsin and beyond, with more than 12,000 employees including over 1,400 providers comprising 90 specialties and subspecialties. Its entities provide service and health care to more than two million residents through over 60 clinical locations and ten hospitals in communities across northern, central and western Wisconsin.

MCHS primary operations include: Marshfield Clinic; Marshfield Medical Center hospitals in Marshfield, Eau Claire, Beaver Dam, Ladysmith, Minocqua, Neillsville, Rice Lake, Weston, Park Falls and Marshfield Children's Hospital; Marshfield Clinic Research Institute, Security Health Plan and Marshfield Clinic Health System Foundation.

The Clinic operates several dental clinics in northern, central and western Wisconsin, providing general family dentistry and dental hygiene services to more than 60,000 unique patients per year. These centers were launched through a collaboration including Marshfield Clinic, Family Health Center of Marshfield, Inc., and federal and state agencies, to address the need for dental care in underserved areas. The centers serve all patients regardless of ability to pay or insurance status - uninsured/underinsured, private pay and commercial insurance.

Hospital Overview
Marshfield Medical Center – Eau Claire (MMC-Eau Claire) is a fully integrated medical campus that provides comprehensive inpatient and outpatient health care to residents in the Chippewa Valley and western Wisconsin.

MMC-Eau Claire, offers a wide range of advanced care services including:

- Birth services
- Cancer care services
- Emergency department and urgent care
- General, orthopedic and spine surgery services
- Heart care
- Inpatient and outpatient physical therapy, rehabilitation and occupational therapy
- Medical offices and outpatient care
- Metabolic and bariatric surgery
Occupational and employee health
Pulmonary and critical care medicine

Implementation Strategy Overview
This Implementation Strategy is specific to Marshfield Medical Center-Eau Claire (MMC-Eau Claire) and addresses the community health priorities identified through a collaborative Community Health Needs Assessment (CHNA) process. This document outlines the plans for MMC-Eau Claire to support specific community improvement efforts as part of a larger community-wide plan.

This plan was reviewed and approved by the authorized governing body, MCHS Hospitals Board, Inc. on December 13, 2021, which is on or before the 15th day of the fifth month after the end of the taxable year the CHNA was completed. Evaluation of the previous Implementation Strategy can be found in the 2021 MMC-Eau Claire, Community Health Needs Assessment (CHNA) report.

Community Health Needs Assessment Overview
The MMC-Eau Claire CHNA was conducted by a collaborative partnership of stakeholders in Chippewa and Eau Claire Counties. This group consisted of the Eau Claire City – County Health Department, Chippewa County Department of Public Health, United Way of the Greater Chippewa Valley, Mayo Clinic Health System, Health Sisters Health System Sacred Heart and St. Joseph’s Hospital and MMC-Eau Claire.

The MMC-Eau Claire CHNA written report includes the process used to conduct the assessment and establish the community health priorities, and describes:
- The community served by the hospital and how it was determined
- Community demographics
- The process and methods used to conduct the assessment including data and other information used, methods of collection and analyzing information, cited external source material
- How the hospital accessed input from persons that represent the broad interests of the community
- How data was collected and what types of data were used in the assessment process
- Health priorities and concerns of all population groups including the medically underserved, low-income, and minority groups
- The identified health priorities of both the community and hospital, including the process and criteria used to identify and prioritize identified needs
- Existing resources in the community available to respond to identified priorities

Accessing the Full Report
The written report was completed October 2021, presented to the MCHS Hospitals Board, Inc. for discussion and was approved on December 13, 2021. The full CHNA report, which details the entire assessment and prioritization process, can be found
Prioritization Process
After completing an extensive analysis of quantitative and qualitative data, the National Association of County and City Health Officials (NACCHO) Prioritization Matrix was used by the committee to determine the health improvement priorities and included questions to answer the following:

- How is the county doing compared to the state and national goals?
- What health priorities have the largest community impact?
- What health priorities have the most serious impact?
- Is the community ready to change?
- Can these health priorities be changed over a reasonable period of time?
- Are there gaps in county efforts to address the health priority?
- Did the community and county data identify this as a health priority?

Health Priorities
After review of the data and stakeholder input, the top community health priorities identified by Marshfield Medical Center in Eau Claire are:

- Alcohol and Substance Abuse
- Behavioral Health
- Chronic Disease
- Social Determinants of Health

Due to the interconnected nature of these health priorities, a number of health priorities as shown in Table A were combined. However, MMC-Eau Claire will continue to support additional community health needs as they arise.

Marshfield Clinic Health System is committed to improving the overall health and well-being of the communities we serve by strategically focusing on health equity. According to the World Health Organization, health equity implies that everyone should have a fair opportunity to attain their full health potential and that no one should be disadvantaged from achieving this potential. Therefore, the CBW-Eau Claire will focus on improving health equity in our communities by
implementing strategies that systematically focus on the social determinants of health and subsequently reduce health disparities.

**Identified Health Needs Not Being Addressed**

Through the assessment process, the CBW-Eau Claire determined that the Health Priorities being addressed through the MMC-Eau Claire CHNA align with those of the Eau Claire CHA. Therefore, all health needs will be addressed by MMC-Eau Claire.

**Implementation Strategy**

The Implementation Strategy is a part of a community effort to address identified health priorities. Many strategies will be implemented collaboratively with community and Marshfield Clinic Health System partners. Community change is a long-term process that no one organization can accomplish alone, therefore partnerships are essential for success.

### Health Priority: Alcohol and Substance Abuse

<table>

Educate and engage community members | Increased awareness of resources  
Improved access to resources | Staff time  
Funding as appropriate  
NOWPOW platform | Community based organizations  
Eau Claire City-County Health Department |

#### Goal 3: Engage in community efforts related to advancing health equity and Social Determinants of Health

<table>
<thead>
<tr>
<th>Strategy</th>
<th>Key Actions</th>
<th>Anticipated Outcomes</th>
<th>Resources</th>
<th>Partnerships</th>
</tr>
</thead>
</table>
| Participate in community based workgroups                                  | Actively attend and participate in meetings  
Promote and participate in events and initiatives | Increased collaboration across sectors to advance community support  
Increased community awareness related to SDOH and Health Equity | Staff time  
Program materials  
Funding as appropriate | Eau Claire City-County Health Department  
Vulnerable Populations Workgroup  
United Way of the Greater Chippewa Valley |
Next Steps
This implementation strategy outlines a three-year community health improvement process. Each year within this timeframe, MMC-Eau Claire will:

- Create an annual work plan with specific action steps for that year
- Set and track annual performance indicators for each strategy, evaluate for effectiveness and areas of improvement.
- Track progress
- Report progress toward the performance indicators to the hospital board
- Share actions taken to address the needs with the community at large

Approval and Community Input
This Implementation Strategy Report was adopted by the MCHS Hospitals Board, Inc. on December 13, 2021.

If you would like to serve on a coalition that helps meet the aims of this report, or have a comment on this assessment, please contact the Marshfield Clinic Health System Center for Community Health Advancement at communityhealth@marshfieldclinic.org or (715) 221-8400.
