

# Business Health Solutions

Marshfield Clinic Health System

## Onsite employee screening now available

As an employer, you are already taking steps needed to keep your employees safe during the COVID-19 pandemic. As you continue to refine your business practices, Marshfield Clinic Health System offers you peace of mind with our new employee screening service.

### **We want to offer you the same protection we provide to our health care workers.**

Occupational Health technicians will come directly to your site to screen employees for COVID-19 symptoms and temperatures before they enter the building. This reassures you and your employees that their workplace environment is safe.

As we continue to practice safer-at-home, we want to help businesses and employees return to work safely. This service is offered where, when and how you need it.

Contact Business Health Solutions at **1-800-498-5514**, or email **[businesshealth@marshfieldclinic.org](mailto:businesshealth@marshfieldclinic.org)**, to setup your onsite screening today. Employer clients of Security Health Plan will receive preferred pricing.

*If you or your employees have questions or concerns about COVID-19, visit [marshfieldclinic.org/coronavirus](https://marshfieldclinic.org/coronavirus).*
