

# Occupational Health Team

Creating safer worksites with you.

**COVID-19 has changed our world. However, our mission remains the same - to build healthier communities one organization at a time. We are here to help you get back to business.**

Marshfield Clinic Health System's Occupational Health team is offering services to help you mitigate risk of an outbreak in your organization and keep employees safe and healthy. Our services give your employees peace of mind to continue their essential work.

## Services include:

- Educational programs including PPE training, social distancing practices and how to maintain a clean work environment through regular sanitation practices
- Isolation guidance and contact tracing
- Onsite employee temperature and symptom screening
- Return to work program for those who were isolated
- Testing for employees
- Access to our dedicated Occupational Health email
- Implementing recommendations based on Badger Bounce Back and other state and federal agencies
- Regulation and recommendation interpretations (WI-DHS, OSHA, CDC)
- Medical Advisory services to help you understand an employee's health information (treatment, procedures, accommodations and limitations)

Contact Business Health Solutions at 1-800-498-5514, or email [businesshealth@marshfieldclinic.org](mailto:businesshealth@marshfieldclinic.org) to get started with any of the service offerings.
