

Saturday & Sunday August 4-5, 2018

Bucks and Bulls Archery
3296 Church St
Stevens Point, WI 54481

You are invited to sponsor Aim for a Cure honoring those affected by cancer and raising funds to support Cancer Research in Central Wisconsin. Since 2013 we have raised over \$20,000 for cancer research.

ARCHERY SHOOT

🎯 Celebration in Color
5K Run/Walk

supporting cancer research

Bucks and Bulls Archery and Marshfield Clinic are Aiming for a Cure for Cancer!

Weekend Activities

Events start at 8 am both days, ending with Raffle drawings at 3pm on Sunday. FUN the whole family with Bounce House, Tie Dye Station, Free parking, Food and Beverages available as well as Vendors onsite.

Marshfield Clinic Research Institute is involved and recognized nationally for its work in cancer research. In addition to participating in the latest clinical trials that investigate promising new cancer treatments, researchers here are working on studies that aim to improve the delivery of cancer care, making it more effective, patient-centered, and more affordable. They also continue their search to find better ways to prevent cancer and diagnose it early when it does occur.

These studies could change the way we fight cancer by reducing the amount of radiation exposure from medical imaging, improving efforts to help smokers quit the habit, and providing additional support for the financial and psychological stress that accompany a cancer diagnosis and treatment.
