Wisconsin Hospitalist Practice Seeking
GIM and Family Medicine Physicians

Marshfield Clinic is expanding our hospitalist service in Western Wisconsin at three different sites – Eau Claire, Chippewa Falls, and Rice Lake. Each site is staffed independently. The individual joining this service will work as part of team of hospitalists with physician extender support (PAs and NPs).

- Shifts are 12 hours with 2050 hours expected annually (≈171 shifts).
- Scheduling is flexible depending on the site and local team agreements (i.e. 7 on/7 off; 5 days/5 nights; other).
- Moonlighting shifts are available at all sites.
- Average census of 12-15 patients, Adult only.
- ICU patients are managed by critical care service (Eau Claire) or transferred (Rice Lake, Chippewa Falls).
- Specialty support and consultations through the Marshfield Clinic system.
- J1 applications accepted for Rice Lake location.

Marshfield Clinic is part of Marshfield Clinic Health System, and is committed to enriching the lives of others through accessible, affordable compassionate healthcare. Successful applicants will listen, serve and put the needs of patients and customers first.

Marshfield Clinic is overseen by an 11-member physician Board of Directors and a physician executive director. Marshfield Clinic physicians and staff serve more than 350,000 unique patients each year through accessible, high quality health care, research and education. With over 700 physicians in 86 medical specialties and subspecialties as well as 6,800 employees in more than 50 locations in Wisconsin, Marshfield Clinic is nationally recognized for innovative practices and quality care.

Marshfield Clinic is seeking a BE/BC (Internal Medicine or Family Medicine) who is comfortable combining the art of caring with the scientific approaches of measurement, technology, and organizational evolution. The successful candidate will be adaptable, and focused on providing ultimate customer service through quality care. The physician will team with the patient to arrive at goals, allowing patients to understand and make decisions about their care options based upon evidence.
